

ISABELLA KOOSH

EDUCATION

University of California, Berkeley | B.A. Computer Science, GPA: 3.4

Relevant Coursework: Intro to Artificial Intelligence (Fall 2026), Intro to Internet Architecture (Fall 2026), Data Structures, Computer Architecture, Discrete Mathematics & Probability, Linear Algebra, Calculus I–II, Foundations of Data Science

Sutardja Center for Entrepreneurship and Technology (SCET) Certificate

SKILLS

Programming Languages: Python, Java, JavaScript, C, HTML, CSS, C++, C#

Languages: English (native), Spanish (native), French (working proficiency)

AI Tools & Skills: Claude, ChatGPT, Lovable, V0, Claude Code, Codex, Copilot, prompt engineering, Jira, Figma, Adobe XD, UX/UI, Agile, Notion, React, Excel, Google Stitch, Cucumber.io

WORK EXPERIENCE

Flourish Science

Palo Alto, CA

Product Operations Intern

September 2026 - Present

- Own the user-to-product feedback loop, triaging support requests, bugs, and feature feedback into prioritized Linear tickets. Reproduce issues, conduct QA, verify fixes, and synthesize recurring user insights to inform product improvements and testing.

SoundExchange

Washington, D.C

Product Management Intern

June 2026 - August 2026

- Led discovery across internal and customer-facing products through stakeholder interviews and survey research; authored PRDs, user stories, and Jira tickets for a solution projected to reduce administrative effort by 75%.
- Conducted UI/UX analysis and prototyped product concepts in Claude and Lovable, including improvements projected to reduce support requests by 50%+.
- Built an AI workflow framework with use-case evaluations and prompt engineering best practices, presenting recommendations to leadership to accelerate internal adoption.

UC Berkeley Sutardja Center for Entrepreneurship and Technology

Berkeley, CA

Product Management Course Teacher's Assistant

July 2026 - Present

- Repositioned course positioning and market fit by rewriting course description and executing targeted enrollment strategy, increasing non-technical student participation across humanities and social sciences majors.
- Co-develop curriculum modules and facilitate weekly case discussions for a 60-student interdisciplinary PM course, serving as the primary resource for a cohort spanning 8+ majors, undergraduate, master's, and exchange students.

Lipor

Porto, Portugal

Consultant

July 2025 - August 2025

- Designed citizen-engagement marketing framework and engineered AI-powered chatbot connecting users to local repair resources for LIPOR's e-waste initiative (CREW); presented both to LIPOR leadership to improve volunteer mobilization and donation quality.

PROJECTS

BearCheck | Founder, Sales & Growth

Growing BearCheck, a classroom presence platform that makes attendance faster for students and more reliable for instructors. BearCheck is currently deployed across lecture halls at UC Berkeley with hundreds of registered users.

Tile-based world exploration engine

Developed a tile-based world exploration engine in Java using 2D arrays and HashMaps, featuring seeded random world generation for unique structures and appearances, a line-of-sight rendering system, and interactive navigation.

LEADERSHIP AND ORGANIZATIONS

Berkeley ANova | Vice President of Finance

November 2025 - May 2026

- Berkeley ANova is a student-led nonprofit organization with 60 members dedicated to expanding access to high-quality computer science education for underserved middle & high school students from 9+ Bay Area schools.
- Managed \$30,000+ in organizational accounts and hundreds of dollars in weekly transactions; led budgeting, financial planning, and resource allocation to ensure long-term organizational sustainability.
- Partnered with the President and VP team to recruit and interview candidates for the 11-member officer team and broader club membership; led a multi-week, multi-step selection process, personally conducting 22 candidate interviews across both processes; managed day-to-day operations serving 100+ students annually.

Management Leadership for Tomorrow | Career Prep Fellow

November 2025 - Present

- Selected for MLT's Career Prep Fellowship, an 18-month program providing executive coaching and leadership development in product management and technology.
